SKINSYNC AI

Accessibility Statement

Last Updated: March 12, 2026

SkinSync AI is committed to ensuring digital accessibility for all users, including individuals with disabilities. We strive to improve the accessibility and usability of our website and services and aim to provide an inclusive experience for everyone.

This Accessibility Statement applies to **https://skinsyncai.com**, the SkinSync AI mobile applications, and related services (collectively, the "Platform").

Our Commitment

SkinSync AI is working to ensure that our Platform is accessible to the widest possible audience regardless of technology or ability.

We aim to follow generally recognized accessibility standards and best practices, including the **Web Content Accessibility Guidelines (WCAG)** where feasible.

Our goal is to create a digital experience that allows users of varying abilities to access information and use the Platform effectively.

Accessibility Features

To support accessibility, our Platform may include features such as:

- readable and structured page layouts
- compatibility with screen readers and assistive technologies
- scalable text and responsive design
- clear navigation structures
- accessible forms and input fields

We continue working to improve accessibility across our platform as new technologies and best practices evolve.

Ongoing Improvements

Accessibility is an ongoing process, and SkinSync AI regularly reviews and updates its website and applications to improve usability and accessibility for all users.

We aim to identify and address potential accessibility barriers as they arise.

Third-Party Content

Some portions of the Platform may rely on third-party tools or integrations that are outside the direct control of SkinSync AI. While we encourage accessibility among our partners, we cannot guarantee the accessibility of third-party content.

Feedback and Assistance

If you experience difficulty accessing any part of the SkinSync AI website or services, we encourage you to contact us so we can assist you and improve the accessibility of our Platform.

Please include a description of the issue and the page or feature involved.
